

Dear Club,

As you are aware, the new medical regulations will begin in the 2023-24 season and your club are required to comply. It is **essential** that you make your first aiders aware of this information.

As a **step 5 or 6 club**, you must have a **first aider*** who holds a valid Level 2 Emergency First aid in Football (EFAiF) or one of the recognised equivalents.

[Recognised course equivalents](#) – please note any course not on this list will **not** be accepted in any circumstance.

***Requires a First Aider** means a person who holds a valid Emergency First Aid in Football accreditation.

Please note completion of an FA medical qualification does **not** imply that individual is now a qualified medical practitioner. Qualified medical practitioners are graduate health care professionals (e.g., a doctor, physiotherapist, paramedic, nurse, sport therapist or sports rehabilitator), who is currently practicing, having the appropriate valid medical insurance, and being registered with a recognised professional body.

Please see below upcoming Level 2 EFAiF courses, which currently still have spaces, in March-April 2024:
